

ANOTHER D IN AUCKLAND

Sunday, November 11 2007 @ 11:40 AM NZDT

Recently purchased from Ashburton and driven up to Auckland. 126,000km on the clock. Original owner bought "Eunice" in Invercargill and then handed over to her daughter (whom the car is now named after). she put it in a shed for 5 years.

The Ashburton contact found it and managed to drive it away after promising to name the car Eunice. 5 years later Eunice is in my garage (right behind "Norma-Jaune"). Some work needs to be done - early stages of rust in the usual places - otherwise mint condition!
